

Domanda di sosta con il metodo della targa

Le indagini effettuate con questa tecnica prevedono il rilievo dei numeri di targa (solo ultime 5 cifre, per la privacy) effettuato in diversi momenti della giornata.

Il rilievo della domanda di sosta con il metodo della targa è stato applicato su 5 aree del centro città particolarmente significative, in una giornata feriale:

1. Via Cavour – Via Andria;
2. Via Imbriani – Corso Garibaldi;
3. Via Diaz – Via Indipendenza – P.zza Conteduca - Via De Nittis;
4. Via Coletta – Piazza Caduti in Guerra;
5. Via Chieffi;

e su 3 aree litoranee, in una giornata festiva:

1. Via Ofanto
2. Via Prascina
3. Vie delle Mura del Carmine

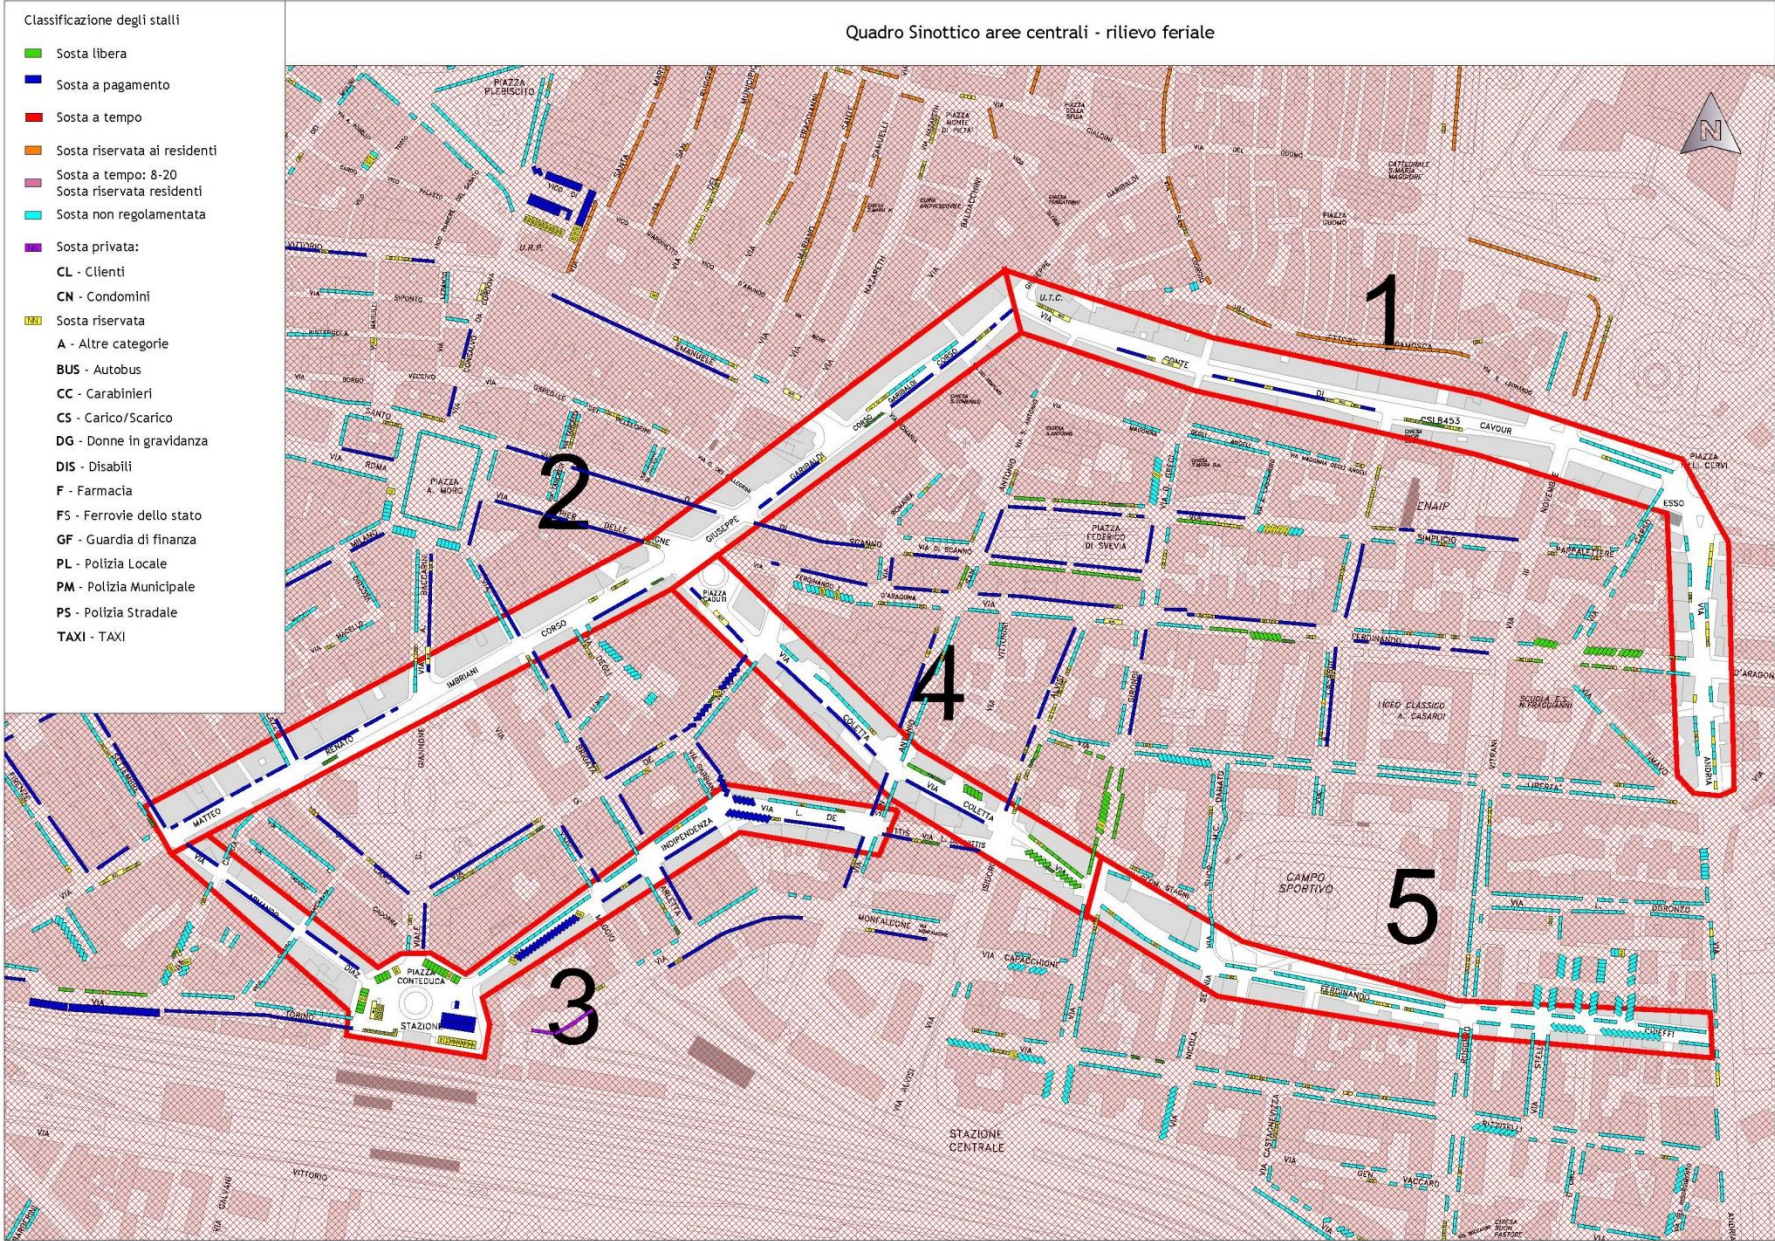

Per ogni area sono stati eseguiti sette passaggi:

- un passaggio notturno dalle 5:00 alle 6:00;
- tre passaggi mattutini dalle 09:00 alle 12:00;
- tre passaggi pomeridiani dalle 17:00 alle 20:00.

I rilievi consentono di determinare l'indice di occupazione e il bilancio domanda-offerta, di ricostruire la domanda distinta in "residenti" e "non residenti", di breve e lunga durata per la determinazione del turn-over.
